SUMMARY

Full-stack web developer skilled in Next.js, React.js, Node.js, TypeScript, PostgreSQL, and FastAPI. Passionate about building scalable, high-performance applications with a focus on user experience, backend efficiency, and automation (SEO, API, web scraping). Seeking opportunities to contribute to innovative, impactful projects.

WORK EXPERIENCE

January,2025 - Present

Sparklog

Full Stack Developer Intern

- Building and optimizing web applications using Next.js, React.js, Node.js, and PostgreSQL. Working on API integrations, database management, and automation (SEO, web scraping, API). Focused on performance, scalability, and user experience.

EDUCATION

2019 - 2020

KENDRIYA VIDYALAYA , AIR FORCE STATION

10th - 84%

2021 - 2022

12th - 80%

2022 - Present

SHRI SIDDHI VINAYAK GROUP OF INSTITUTIONS

Bachelor's of Technology (Computer Science)

PROJECTS

January,2025 - March,2025

Sparklog – Minimalist Journaling Platform ↗

- Built a private journaling app focused on simplicity and speed, enabling users to log thoughts instantly. Implemented user authentication, markdown support, and clean UI using Next.js, Tailwind CSS, and Prisma.

Feb,2025 - Mar, 2025

XThreadCraft – Twitter Automation & Analytics Platform ↗

- Built a full-stack platform that automates tweet interactions, provides analytics, and manages tweet deletions to enhance audience engagement and content strategy.

March,2025 - April,2025

Stock Monitor Bot – Real-Time Stock Price Tracker ↗

- Developed a Python-based bot that streams real-time stock data for ICICI Bank. Utilized yfinance for data fetching, with custom signals for trade alerts, trend analysis, and logging for decision-making.
